SUGAR CONFECTIONERY · INDORE, MADHYA PRADESH

CANDY BUILT FOR HOT MARKETS.

Hard-boiled candy, mints, sugar-coated fennel, jellies and coated balls from India's value confectionery cluster — consolidated, documented and shipped to distributors across Africa and the Middle East.

ACTUAL PRODUCTION STOCK

EXPORT@ORIANGLOBAL.COM

A YOUNG EXPORTER, AN ESTABLISHED SUPPLY BASE.

Orian Global is a confectionery exporter based in Indore, Madhya Pradesh — the centre of India's value confectionery manufacturing. We consolidate sugar confectionery from licensed manufacturers in this cluster and ship it, correctly specified and correctly documented, to distributors in Africa, the Middle East and South Asia.

> We were registered for export in 2026. We would rather tell you that than imply a history we don't have. What we can offer instead is speed, accurate specification, and direct access to the people who make the product.

WHAT WE DO

- Buy through a licensed wholesale supplier inside the Indore confectionery cluster, close to the factories that produce it
- Verify specification, coding, batch marking and packing before dispatch
- Combine several SKUs into one container so you can carry range without carrying risk
- Handle export documentation end to end
- Arrange private-label production under your own brand

WHAT WE DON'T DO

- We don't own a factory and we don't pretend to. We are a sourcing and export house, buying through an established wholesale supplier in the cluster.
- We don't quote a price we can't hold. Quotations carry a stated validity date.
- We don't ship cocoa-coated lines into peak summer arrivals without telling you the risk first.

FROM ENQUIRY TO CONTAINER, IN FIVE STEPS.

01

TELL US THE MARKET, NOT JUST THE PRODUCT

Destination country, retail price point, and whether you need registration support. Different markets need different labels, different shelf life and different pack sizes — we would rather establish that before quoting than after.

02

SAMPLES

Dispatched by courier against freight cost. We send the actual production article, in its actual wrapper — not a special sample run.

03

SPECIFICATION LOCK

SKU mix, piece weight, wrapper artwork, carton marking, language and coding are fixed in writing. You receive a packing specification sheet before any advance is paid.

04

SOURCING AND VERIFICATION

Goods are sourced against the locked specification. We check count, weight, seal integrity, date coding and carton marking on receipt, and again before stuffing.

05

DOCUMENTATION AND DISPATCH

Commercial invoice, packing list, certificate of origin, bill of lading and certificate of analysis where required. Documents are couriered and emailed the same day they are issued.

ORIGIN TRACEABILITY

Every consignment is traceable to the factory that produced it. We identify the manufacturer and share its licence details with you at enquiry stage.

MIXED CONTAINERS

Minimum one metric tonne per SKU. Below full-container volume, several SKUs travel together in one booking.

TERMS

FOB Mundra or Nhava Sheva. CFR and CIF quoted on request. Payment by telegraphic transfer, part advance against balance on shipping documents.

WE KNOW WHAT YOUR CUSTOMS OFFICER WILL ASK FOR.

Our range is built for hot-climate, price-sensitive retail — open-market kiosks, wholesale networks and the checkout counter. Below is what each of our priority markets actually requires at import. If your market isn't listed, ask; we will tell you honestly whether we can serve it.

NIGERIA	**NAFDAC product registration is required before import.** Registration is normally held by the importer and takes several months. Tell us early who is handling it — we will supply the documentation package your agent needs.
GHANA	**FDA Ghana product registration required.** Labels must carry the manufacturer's details, batch code and best-before date in the format the Authority accepts.
KENYA	**KEBS pre-export verification of conformity (PVoC) at origin.** Inspection is arranged in India before shipment; we coordinate with the appointed inspection agency and provide test reports.
UNITED ARAB EMIRATES	**Arabic labelling is mandatory** and products require registration in the municipality food system. We print bilingual labels at no additional artwork cost.
IRAQ · YEMEN	Certificate of conformity required at import. These markets are served on advance payment terms only.
SOUTH ASIA	Nepal, Sri Lanka and Bangladesh — shorter transit, smaller trial quantities practical.

> **Europe and the United Kingdom.** Our current formulations use colours that are not permitted for food use in the EU and UK. We will not tell you otherwise to win an enquiry. A reformulated production run is possible — ask us and we will quote it as a separate development.

NINE LINES, ONE CONTAINER.

Minimum one metric tonne per SKU. Lines 01–07 are sugar only and travel to hot markets year-round; 08 and 09 contain cocoa and ship on a planned window. Below full-container volume, lines combine into a single booking.

HARD CANDIES

Translucent sugar-dusted hard candy. The most heat-tolerant line we ship.

01 · HS 1704.90

FRUIT BALLS

Polished spheres in solid colours. Loose, bulk, or sealed 4-piece pillows.

02 · HS 1704.90

MASALA BALLS

Spiced hard-boiled balls. Same formats as Fruit Balls, so they share a container.

03 · HS 1704.90

MINT TABLETS

Pressed mints in a flip-top pack, or bulk. An adult, repeat purchase.

04 · HS 1704.90

RING MINTS

Pressed ring mints in bulk. You choose the retail pack.

05 · HS 1704.90

SUGAR-COATED FENNEL

Panned mouth freshener. Pouch for retail counters, bulk for restaurants.

06 · HS 1704.90

SUGAR-COATED JELLIES

Sanded jelly in many shapes. Loose in 1 kg packs, or on a wrapped stick.

07 · HS 1704.90

CHOCOLATE LENTILS

Colour-shelled chocolate lentils. Pouch, jar or bulk. Contains cocoa.

08 · HS 1806.90

COATED BISCUIT BALLS

Cocoa-coated biscuit balls in twin pillow packs. Contains cocoa.

09 · HS 1806.90

PACK FORMATS ACROSS THE RANGE · SHOWN BLANK FOR PRIVATE LABEL

PILLOW PACK

SINGLE-SERVE SACHET

COUNTER JAR

FLIP-TOP PACK

BULK POUCH

LEFT · PRODUCTION STOCK, MIXED FRUIT AND BLACK IN THE 500-PIECE COUNTER BOTTLE · RIGHT · ILLUSTRATIVE IMAGE OF THE LOOSE PIECES

HARD CANDIES

SUGAR-DUSTED, LOOSE OR BULK

Translucent moulded hard candy with a sugar dusting instead of a polished shell, and a sharper, tangier profile than Fruit Balls. Sold unwrapped: from a tall counter bottle, or by the kilo for repacking at destination.

FORMATS

LOOSE IN PET BOTTLE | BULK 500 G | BULK 1 KG

FLAVOURS

MIXED FRUIT | BLACK | ORANGE | MANGO | LEMON

> Our lead line for West and Central Africa. Hard-boiled sugar is the most heat-tolerant product we ship, packs densely, and has the lowest cost per piece in the catalogue.

EXPORT SPECIFICATION

PIECE WEIGHT	2 g / 4 g
FINISH	Unwrapped, sugar-dusted
COUNTER PACK	500 pcs per PET bottle
BOTTLES PER CASE	24
BULK	500 g or 1 kg pouch
SHELF LIFE	24 months
STORAGE	Cool, dry, below 30 °C
MINIMUM ORDER	1 MT per SKU
PRIVATE LABEL	Bottle label, bulk bag and carton
HS CODE	1704.90

CONTAINER YIELD · 500 PCS PET BOTTLE

500	24	12,000	464	1,000
PIECES PER BOTTLE	BOTTLES PER CASE	PIECES PER CASE	CASES PER 20′	CASES PER 40′ HQ

Container loads calculated from carton volume and payload limit; confirmed against final carton specification at booking. Other formats on the line card, page 15.

LEFT · ILLUSTRATIVE IMAGE OF POLISHED CANDY BALLS · RIGHT · 4-PIECE PILLOW PACK, SHOWN BLANK FOR PRIVATE LABEL

FRUIT BALLS

POLISHED SPHERES, THREE FORMATS

Hard-boiled centres finished with a polished sugar shell — smooth, high-gloss, solid colour. Loose in a jar, in bulk, or sealed four to a pillow pack in a single colour or a five-colour mix.

FORMATS

- 4-PIECE PILLOW PACK
- LOOSE IN JAR
- BULK 500 G – 1 KG

COLOURS

- ORANGE
- STRAWBERRY
- PINEAPPLE
- GREEN APPLE
- LEMON
- FIVE-COLOUR MIX

> The 4-piece pillow is a one-coin format. Each pack is sealed, so the gloss survives humid transit, and a kiosk can sell single packs without opening a jar to the air.

EXPORT SPECIFICATION

PIECE WEIGHT	2.5 g
PILLOW PACK	4 pcs, single or five-colour
PILLOWS PER JAR	100
JARS PER CASE	12
LOOSE JAR	150 pcs, other sizes on request
BULK	500 g or 1 kg pouch

LEFT · ILLUSTRATIVE IMAGE OF SPICE-DUSTED BALLS · RIGHT · 4-PIECE TRANSPARENT PILLOW, SHOWN BLANK FOR PRIVATE LABEL

MASALA BALLS

SPICED HARD-BOILED CANDY

Spiced hard-boiled balls with a raw-mango and tamarind profile. They come in the same three formats as Fruit Balls, so the two lines share carton sizes and fill one container together without wasted space.

FORMATS

- 4-PIECE PILLOW PACK
- LOOSE IN JAR
- BULK 500 G – 1 KG

FLAVOURS

- KACHHA AAM
- IMLI
- JALJEERA
- MIXED MASALA

> Sells hardest where South Asian buyers shop: the GCC, East Africa, and diaspora retail further afield. A natural second line alongside Fruit Balls in a first mixed container.

LEFT · ILLUSTRATIVE IMAGE OF SUGAR-COATED FENNEL · RIGHT · SINGLE-SERVE SACHET STRIP, SHOWN BLANK FOR PRIVATE LABEL

SUGAR-COATED FENNEL

PANNED MOUTH FRESHENER

Fennel seed panned in a coloured sugar shell — the after-meal mouth freshener served in South Asian homes and restaurants. Classified for customs as sugar confectionery: sugar-coated panned goods.

FORMATS

2.5 – 5 G POUCH | LOOSE IN JAR | BULK 500 G – 1 KG

FINISH

MULTICOLOUR | SINGLE COLOUR ON REQUEST

> Two buyers, two formats. Retail takes the single-serve pouch for the counter; restaurants buy the 1 kg pack to fill the bowl by the till. Strongest in the GCC and South Asian diaspora retail.

EXPORT SPECIFICATION	
POUCH	2.5 g or 5 g, single serve
POUCHES PER INNER BOX	100
BOXES PER CASE	24

Container loads calculated from carton volume and payload limit; confirmed against final carton specification at booking. Other formats on the line card, page 15.

EVERY FORMAT, EVERY LOAD.

Most lines come in several pack formats. Choose the one that fits your retail price point and your pallet — the container load changes significantly between them, and that is usually worth more than a unit-price discussion.

MIXING FORMATS

Several formats and lines can travel in one container. The one-tonne minimum applies per product, not per format.

CARTON SIZING

Send us your pallet dimensions and we will size cartons to them. On a full container this is usually worth more than a price concession.

WEIGHT VS VOLUME

Most of this range fills a container by volume before payload. Bulk pouches and dense bottle packs are the exceptions, and the most freight-efficient way to buy.

PACKED FOR THE THIRD HANDLING, NOT THE FIRST.

Between our floor and your retailer's shelf, a carton is lifted at least six times. Our packing is specified for the last of those, not the first.

CONSUMER UNIT

Sealed pillow pack, single-serve pouch or flip-top pack, printed with batch code and best-before date. Language and artwork to your market's requirement.

LEVEL 01

DISPLAY UNIT

Clear PET jar or bottle with a fixed piece count, or a 500 g–1 kg bulk pouch, so a warehouse audit doesn't require breaking stock.

LEVEL 02

MASTER CASE

Corrugated export carton, stencilled with product, count, net and gross weight, batch, origin and handling marks.

LEVEL 03

CARTON MARKING, AS STANDARD

- Product name and variant
- Piece count and inner count
- Net weight and gross weight
- Batch number and date of manufacture
- Best-before date
- Made in India · exported by Orian Global
- Handling marks — keep dry, this way up, stacking limit

WHAT WE WILL CHANGE FOR YOU

Piece count per inner, inner count per case, carton size, language, barcode, importer details, and the destination-specific regulatory panel. Pack configuration is one of the cheapest things to customise and one of the most useful — a carton sized to your pallet is worth more than a discount.

> Send us your pallet dimensions and we will size the carton to them rather than shipping you air.

LEVEL 01 · CONSUMER UNIT

LEVEL 02 · DISPLAY UNIT

LEVEL 03 · EXPORT MASTER CASE

PACKING LEVELS · ILLUSTRATIVE IMAGES, PACKS SHOWN BLANK FOR PRIVATE LABEL

YOUR BRAND ON THE WRAPPER.

Most distributors who start with our range move to private label within two orders. The economics are straightforward: the same production, the same landed cost, and a brand that competitors cannot buy around you.

WHAT CAN BE CUSTOMISED

- Wrapper and label artwork under your brand
- Jar, pouch, pillow-pack and flip-top design
- Master carton design and stencil
- Piece weight and pack count to hit a target retail price
- Sweetness level and flavour intensity
- Colour palette of the assortment
- Language, barcode and regulatory panel by market

HOW IT RUNS

01 **BRIEF AND TARGET PRICE**

You give us the retail price you need to hit. We work backwards to piece weight and pack count.

02 **ARTWORK**

Supply your files, or we prepare print-ready artwork against your brand guidelines.

03 **PROOF, THEN PRODUCTION**

Printed wrapper proof approved by you in writing before the run starts.

CHECK US BEFORE YOU ORDER.

Our registrations are public. You can verify both of the numbers below on the Government of India portals without asking us for anything. We would rather you did.

IMPORT–EXPORT CODE · DGFT	GSTIN	VERIFY AT
BLQPV4103H	**23BLQPV4103H1Z0**	**dgft.gov.in**

DOCUMENTS SUPPLIED WITH EVERY SHIPMENT

- Commercial invoice
- Packing list with carton-level detail
- Certificate of origin
- Bill of lading
- Certificate of analysis, where required by destination
- Health certificate, where required by destination
- Phytosanitary certificate, where applicable

> Documents are emailed as scans on the day of issue and couriered the same week. Delayed documents cost you demurrage, which is why we treat this as part of the product.

HOW THE SUPPLY CHAIN IS BUILT

Orian Global is a sourcing and export house. We do not manufacture. Goods are bought through a licensed wholesale supplier operating inside the Indore confectionery cluster, and produced by manufacturers within that cluster. For each consignment we identify the producing factory and share its licence details with you at enquiry stage.

We say this plainly because you will find it out anyway, and because a supplier who is vague about where goods come from is a supplier who cannot answer for them when something goes wrong.

IN PROGRESS

The following are under application. We list them here as pending rather than claiming them, and we will confirm in writing the moment each is granted.

- FSSAI Central Licence — Orian Global
- Halal certification for the export range

> If your market requires a certification we do not yet hold, say so at enquiry stage. We will tell you the realistic timeline rather than the one you want to hear.

START SMALL. THEN DECIDE.

We would rather ship you a mixed trial container that sells through than a full container of one SKU that sits. Tell us your market and your target retail price, and we will build the mix around it.

REQUEST SAMPLES

Actual production stock, sent by courier against freight cost. Tell us which lines you want to taste.

EMAIL	export@orianglobal.com
TELEPHONE · WHATSAPP	+91 70240 76943
WEB	orianglobal.com
OFFICE	Indore, Madhya Pradesh, India
PORTS OF LOADING	Mundra · Nhava Sheva

WHAT TO SEND WITH YOUR FIRST ENQUIRY

- Destination country and port
- Target retail price per piece
- Which lines interest you
- Own brand or private label
- Whether you hold the import registration already

Send those five things and you will have a quotation and a loading plan back, not a request for more information.

ORIAN GLOBAL

CONFECTIONERY EXPORT · INDIA

ASK US THE HARD QUESTION FIRST.

Capacity, certification, shelf life in your climate, what happens if a carton arrives damaged. Those are the questions that decide whether this works. Ask them at enquiry stage and we will answer them plainly.
